

TELEPHONE CONVERSATION RECORD

PERSON CONTACTED: Art Palmer, Director
Health Physics and Radiological Engineering
Energy Solutions
1009 Commerce Park Drive, Suite 100
Oak Ridge, TN 37830
(865) 481-6325

LICENSEE: Breckenridge Disposal Site
Former Licensee "Michigan Chemical Company"

DOCKET No: 040-06264 (terminated)

LICENSE No: SUB-833 (terminated)

CALLER: Mike McCann, Senior Health Physicist
Materials Control, ISFSI, and Decommissioning Branch

DATE OF CALL: April 5, 2010

SUBJECT: STATUS CALL REGARDING DECOMMISSIONING OF THE
BRECKENRIDGE DISPOSAL SITE (BDS)

Mr. Palmer returned my call to Mr. Bob Hornbeck. I had attempted to contact Mr. Hornbeck to get an up-date regarding the BDS Project. Mr. Palmer indicated that Energy Solution, had replaced Mr. Hornbeck with Mr. Mike Pries as Project Manager for the BDS Project.

Mr. Palmer indicated that he would have Mr. Preis contact me to discuss the clean-up schedule for the Project. He went on to indicate that they were delayed due to Michigan State Law's regarding ground frost and truck traffic. He believed that they should be ready to start by the first week of May 2010. He also indicated that if everything goes according to schedule that they should complete the project within approximately 7 weeks.

Mr. Palmer was not sure if anyone from his company would participate in an April 21, 2010, local citizen's interest group meeting. He indicated that he would have Mr. Pries call me.

No further discussion.
