ATTN: Licensing Assistant

Docket# 030-38005
License # 11-29341-01

We are requesting an expedited amendment to our materials license stated above, due to projected growth within our company. It is anticipated that MISKO, Inc. will need to have the capabilities to acquire (7) nuclear density gauges by, or around May 2010, for purposes of providing services to our clients.

Item 8A of the above referenced Materials license needs to be amended to read "72 millicuries total. No single source to exceed the maximum activity specified in the certificate of registration issued by NRC or an Agreement State."

Item 8B of the above referenced Materials license needs to be amended to read "352 millicuries total. No single source to exceed the maximum activity specified in the certificate of registration issued by NRC or an Agreement State."

Item 9 A. and B. of the above referenced Materials License needs to be amended to read "To be used in a Troxler Electronic Laboratories, Inc., Model No. 3400 series portable gauging device for measuring physical properties of materials."

If you have any additional questions or need further clarification, please call Michael Maher at 208-227-4094. Thank you in advance for your efforts to expedite this Materials License Amendment.

Sincerely,

A handwritten signature in black ink, appearing to read "Rick Gokey". The signature is fluid and cursive, written over a faint, illegible stamp.
