--	--------	-----------------------	-------------	----------------------	-----------

**Name of Licensee:** Diagnostic Imaging of Southbury, L.L.C.**Name of Participant(s):** Chris Beaulieu, Office Manager/Chief Nuclear Medicine Technologist**Telephone No.** (203) 267-5800 Ext. 1220**Subject:** Request for additional information regarding relocation of nuclear medicine department

(NOTE: This will be used as the Documents Title in ADAMS)

I spoke with Chris about the relocation of the nuclear medicine room. I confirmed that only diagnostic nuclear medicine procedures (35.100 and 35.200) are performed. They do not perform any PET or therapy procedures. He said that there is some shielding already in the room and that their physicist would be performing surveys to confirm that they meet the dose to the public limits. I told him to keep that documentation on file since it might be reviewed during an inspection. I also told him that area surveys would need to be performed prior to releasing the old room and that these surveys would need to be kept on file so that they may be reviewed during a later inspection. I also clarified the middle initial for Dr. Gumbardo, the Radiation Safety Officer. On the license, it is documented as Dr. Robert G. Gumbardo, but in the amendment letter, it is listed as Dr. Robert C. Gumbardo. I confirmed that the middle initial is "C" so I will make that change to the license. I also got Dr. Gumbardo's email address for the licensing worksheet.
