AUDIT OF U.S. NUCLEAR REGULATORY COMMISSION'S ACCOUNTING AND CONTROL OVER TIME AND LABOR REPORTING

OIG-08-A-11

Status of Recommendations

Recommendation 3: The CFO should conduct a detailed system analysis and eliminate redundant paper forms that are not needed.

Agency Response Dated
February 19, 2010:

The modernization project for the Time & Labor (T&L) system is scheduled to be completed on April 11, 2010. As part of this modernization, the Office of the Chief Financial Officer (OCFO) is working to incorporate workflow which would allow for electronic signatures. The OCFO has met with the Office of Human Resources to discuss the possible elimination of various leave request forms and has also met with the National Treasury Employees Union. In our preliminary findings, the Summary Approval Report, all leave request forms, unit transfer forms, and security request forms can be part of the electronic workflow process. This recommendation remains open.

OIG Analysis: The proposed corrective action addresses the intent of OIG's recommendation. This recommendation will be closed when OIG receives a report on the system analysis that results in the elimination of redundant paper forms.

Status: Resolved.
