Victoria, Texas 77901

SUBJECT: MAINTENANCE OF REFERENCE MATERIALS AT THE VICTORIA PUBLIC LIBRARY IN REGARDS TO THE NRC'S REVIEW OF EXELON'S EARLY SITE PERMIT FOR THE VICTORIA COUNTY STATION SITE

Dear Ms. Williams-Capone:

This is a letter regarding our telephone conversation on April 6, 2010, concerning the maintenance of relevant documents by your library. These documents are related to the U.S. Nuclear Regulatory Commission (NRC) staff's review of the Exelon Corporation's (Exelon's) application for an early site permit (ESP) for the Victoria County Station site, in Victoria County, Texas.

The NRC appreciates your willingness to assist the public in participating in the ESP application process for the siting of a nuclear power plant. As we discussed, your support will consist of providing shelf space in your reference section which will be used for making documents related to the NRC staff's environmental review of Exelon's Victoria County Station ESP application available to the public. Enclosed are the initial documents: Public versions of Exelon's Environmental Report (ER) and Site Safety Analysis Report (SSAR) from its ESP application.

We will place the Victoria Public Library on our distribution list for notices and major documents related to the environmental review of Exelon Corporation's Victoria County, Texas ESP application.

Thank you for your cooperation. If you have any questions, you can reach me by telephone at (301) 415-7612 or via e-mail at Paul.Michalak@nrc.gov.

Sincerely,

/RA/

Paul Michalak, Senior Project Manager
Environmental Project Branch 2
Division of Site and Environmental Reviews
