Dear Mr. Rentschler:

Cintichem Inc. is in the process of decommissioning its 5 megawatt reactor in Tuxedo, New York. As a result of this decommissioning, one of the first projects is the removal of all the reactor fuel.

The Department of Energy has informed us that there is a very good feasibility that the fuel will be received at the Idaho Falls, Idaho facility.

Cintichem shipped spent fuel to the Idaho facility in April 1984. I am submitting the route used at that time for your approval to be used for the 1991 shipments.

Enclosed is a check for \$150.00 for the route application fee.

Thank you for your assistance in this request.

Very truly yours,

*H C Hart*
