Secretary
U.S. Nuclear Regulatory Commission
ATTN: Rulemakings and Adjudications Staff
Washington, DC 20555-0001

Subject: Proposed Rule, Revision of Fee Schedules; Fee Recovery for FY 2010,
(75 Fed. Reg. 11376, March 10, 2010, NRC-2009-0333, RIN 3150-AI70)

The U.S. Nuclear Regulatory Commission (NRC) published the subject proposed rule regarding revision of NRC fee schedules for Fiscal Year ("FY") 2010. GEH recognizes that the NRC must assess fees and attempts to apply equitable formulas for establishing the fees each year. However, the proposed Low-Enriched Uranium Fuel Facility annual fee of approximately \$2.05 million represents an increase of about 24% over the FY 2009 annual fee for these facilities. This increase in annual fees to these facilities appears disproportionate compared to the overall approximately 4% increase for FY 2010 annual fees over actual collections of 10 CFR part 171 fees for FY 2009 (see 75 Fed. Reg. at 11377).

Please contact me if you have any questions regarding these comments.

Sincerely,

Patricia L. Campbell
