Audit Report

INFORMATION SYSTEM SECURITY EVALUATION OF REGION IV – ARLINGTON, TX

OIG-09-A-14

Status of Recommendations

Recommendation 1: Develop and implement procedures for sending information system backup information to an offsite location for storage for at least 14 days or as recommended by the agency. The offsite storage location should be in a cabinet or safe that is waterproof and fireproof.

Agency Response Dated
March 31, 2010:

Agree. As of June 29, 2009, Region IV, working with Region II IT staff, has implemented corrective actions to store Region IV's backup tapes in their facility. Additionally, Region IV IT staff has written a Statement of Work to award a contract for offsite data storage services. Estimated timeframe for award of contract is June 1, 2010.

OIG Analysis:

The corrective action addresses the intent of this recommendation. While the tapes are now being stored offsite, OIG cannot close this recommendation until OIG receives documentation that the contract has been awarded and offsite storage is completed.

Status:

Resolved.

Status of Recommendations

Recommendation 2: Develop and document a contingency plan for the Region IV seat-managed infrastructure servers.

Agency Response Dated
March 31, 2010:

Region IV will work with the Office of Information Services (OIS) to update the agency's contingency plan and develop any regional procedures needed to ensure recovery and sustainment of seat managed infrastructure servers following an emergency or system disruption.

Expected Completion: August 4, 2010.

OIG Analysis:

The corrective action addresses the intent of this recommendation. This recommendation will be closed when NRC develops and documents a contingency plan for the Region IV seat-managed infrastructure servers.

Status:

Resolved.

Status of Recommendations

Recommendation 3: Develop and document a contingency plan for the Region IV NRC-managed servers.

Agency Response Dated
March 31, 2010:

Region IV will work with OIS to update the agency's contingency plan and develop any regional procedures needed to ensure recovery and sustainment of NRC-managed infrastructure servers following an emergency or system disruption.

Expected Completion: August 4, 2010.

OIG Analysis:

The corrective action addresses the intent of this recommendation. This recommendation will be closed when OIG verifies that the agency has updated the contingency plan, and implemented any regional procedures needed to ensure recovery and sustainment of NRC-managed infrastructure servers following an emergency or system disruption.

Status:

Resolved.

OIG-09-A-14

Status of Recommendations

Recommendation 4: Develop and document a contingency plan for the Region IV badge access system server.

Agency Response Dated
March 31, 2010:

Region IV does have a contingency plan for the badge access system server; however, we agree the current plan should be enhanced to reflect the specific names of personnel assigned to perform the data backup/restoral function.

Expected Completion: Completed December 21, 2009. The contingency plan for the badge access system server was updated and includes specifics for personnel assigned for backup/restoral function.

OIG Analysis:

The corrective action addresses the intent of this recommendation. This recommendation will be closed when OIG receives either a copy of the plan or the ADAMS number to verify that the agency has enhanced its contingency plan to reflect position names responsible for data backup/restoral function for the badge access system.

Status:

Resolved.

Status of Recommendations

Recommendation 5: Evaluate the vulnerabilities identified by the network vulnerability assessment and develop a plan and schedule to identify any false positives and to resolve the remaining vulnerabilities.

Agency Response Dated
March 31, 2010:

Region IV will evaluate the vulnerabilities identified by the network vulnerability assessment and work with the Office of Information Services (OIS) and the Computer Security Office (CSO) to develop a plan and work to identify any false positives. Any remaining vulnerabilities will be resolved.

Expected Completion: August 4, 2010.

OIG Analysis:

The corrective action addresses the intent of this recommendation. This recommendation will be closed when OIG verifies that the agency has evaluated and identified the vulnerabilities and also developed and implemented a plan to identify any false positives and resolve any remaining vulnerabilities.
