Hi Pete,

How is Tuesday (12 noon to 4pm Eastern) or any time on Wednesday?

Jim

draft SEIS comments

F/16

Hi Pete,

Please accept my apologies again!! I know it sounds like déjà vu all over again, but I won't be able to support a call this week due to work and home issues.

Would you and your folks be available the week of the 26th?

Thanks for your patience,
Jim

RE: Date and time to discuss our
SEIS comments

Pete,

is there any way to delay this to next week (Oct 19-23)? I've got to read thru each of the documents again this week to provide on Friday any more comments for the project managers to respond to.

Thanks,
Jim

RE: Some follow-up information re:
sage grouse and BLM land use plans

Dear Pete,

Thanks for all this information and the links. I passed it all on to our group working on the three SEISs.

We've had a chance to look over the comments you passed on from your group that reviewed the Nichols Ranch prelim draft SEIS. It appears that there may be some items that we won't be able to get to and so I'd like to set up a time with you for next week to talk about those items. What works for you in terms of day(s)/times?

Thanks,
Jim
