Yes I have asked alan to set that call up. Thanks for having the foresight and creativity to help me address these issues. I am learning so much from you

Andrea - as I think I am learning - it takes a special technique to get BLM to actually take action.

I am not sure what that technique is but I am pretty sure that asking Rick to draft something is not going to make much headway.

I am going to call Mitch Leaverette and let him know of the results of our call yesterday and ask him to please put his attention to this issue so we can issue something jointly.

I am also going to let him know that we do have a meeting set up between Charlie and Mr. Nedd and that we will be giving Charlie some talking points noting that there is a lot to do between BLM HQs and BLM Field Offices and we are observing very slow progress out of BLM HQs.

It wont be a threat but a way to help Mitch connect some dots that he may be too busy to connect.

In the meantime, can your folks move forward to set up a call with the right people to specifically discuss Lost Creek.

Rick if BLM wants to draft something, NRC can review and add our parts and send back to you.

Subject MOU Implementation

Mitch/Rick/Frank,

NRC would like to meet (or telcon) with you to discuss plans for implementing the recently signed MOU. NRC has prepared its communications plan for implementing its portion. I realize that nothing will happen before the New Year, but can you give us an approximate time in the first two weeks of January? Thanks.

Rick - Sorry for the delay, but Colorado is an Agreement State so the NRC doesn't have any involvement in licensing uranium milling activities there.
