Rick,

I received this from Russell Pigors (Belle Fourche Field Office). I was wondering if this is standard 'fare' for a POO EA, or is this Mr. Pigors list of what he thinks should be included. The example EA I was sent for a POO (albeit not for an ISR) contained nowhere near the number of resource items listed, here. Or, does going to an EIS, as he indicates is needed for the Dewey-Burdock ISR, trigger the additional items be addressed? Would that hold true for other ISRs, as well? Thank you.
