KING OF PRUSSIA, PENNSYLVANIA 19406-1415

April 9, 2010

Docket No. 03003799  
Control No. 144559

License No. 06-07945-01

Ravi V. Chandran, P.E.  
Division Chief, Research and Materials  
Connecticut Department of Transportation  
Division of Research and Materials Testing  
280 West Street  
Rocky Hill, CT 06067

SUBJECT: CONNECTICUT DEPARTMENT OF TRANSPORTATION, LICENSE  
AMENDMENT, CONTROL NO. 144559

Dear Mr. Chandran:

This refers to your license amendment request. Enclosed with this letter is the amended license.

Additionally please note that the latest amendment to your license (Amendment No. 29) does not include maximum possession limits for the radioisotopes authorized on the license. Current NRC policy requires that a license include a maximum possession limit for each radioisotope authorized on the license. Therefore, we have administratively amended your license to incorporate this requirement and Item 8 of the license is revised to include maximum possession limits for the radioisotopes authorized on the license. These limits are based on the information provided by David B. Howley of your staff on April 9, 2010, during our telephone conversation.

Further, Condition(s) 13 and 19 that appear in the previous amendment to your license are removed from the license as they are no longer applicable and the remaining conditions are revised and renumbered in accordance with current NRC policy.

**You must request and receive an amendment to your license prior to acquiring licensed material in excess of the limits specified in Item 8 of the license.**

Please review the enclosed document carefully and be sure that you understand and fully implement all the conditions incorporated into the amended license. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region I Office, Licensing Assistance Team, (610) 337-5239, so that we can provide appropriate corrections and answers.

An environmental assessment for this action is not required, since this action is categorically excluded under 10 CFR 51.22(c)(14).

Current NRC regulations and guidance are included on the NRC's website at [www.nrc.gov](http://www.nrc.gov);

R. Chandran
