Mr. Bryce,

Attached are files from our Water Quality Access data base for all stations and water quality data in huc 06020001. If you need benthic or fish data I will have to run another query. Or the staff at CHEFO could get you the information. They have the same database.

Also

TDEC WPC water quality chemistry data (and other agencies) can be located at EPA STORET website <http://www.epa.gov/STORET/> WPC data was last uploaded in September 2009. EPA is no longer accepting new data for STORET. They are requiring agencies to upload data into a new system, which TDEC WPC is working on figuring out.

Richard

We spoke last fall about the NPDES permit for Watts Bar Nuclear Plant - and I am continuing to work on evaluating the license application for WBN Unit 2 for the NRC. I am looking for water quality information on Chickamauga Reservoir in the vicinity of the Watts Bar Site and wondered if Tennessee collects samples in that region of the reservoir and if the analytical results would be available on your web page. I haven't had any luck finding them

Thank you

Bob Bryce
