Exelon Generation Company
Attn: Keith Kemper, Director - Emergency Preparedness
200 Exelon Way
Kennett Square, PA 19348

Dear Mr. Kemper,

This letter is in reference to the Combined Operation License Application (COLA) submitted by Exelon Generation Company, LLC for the construction and operation of two nuclear power units at the Victoria County Station site in Victoria County, Texas.

Victoria County has reviewed the proposed Victoria County Station Emergency Plan being submitted in support of the COLA and finds it to be a thorough, practical, and useful tool for use in managing potential events at Victoria County Station.

Victoria County commits to participate in the continuing planning efforts and scheduled field demonstrations for this Emergency Plan. Victoria County is committed to leading the effort to ensure that the health and safety of the public is maintained as the highest priority during implementation and continued improvement of the emergency preparedness and response plans for Victoria County Station.

Victoria County is committed to executing its responsibilities under the plans in the event of emergencies at the Victoria County Station.

Please contact me if you have any questions regarding this letter or Victoria County's support of the Victoria County Station Emergency Plan.

Very Truly Yours,

Donald Pozzi
Victoria County Judge

**Exelon Generation Company
Attention: Keith Kemper, Director – Emergency Preparedness
200 Exelon Way
Kennett Square, PA 19348**

Dear Mr. Kemper:

This letter is in reference to the Combined Operation License Application (COLA) submitted by Exelon Generation Company, LLC for the construction and operation of two nuclear power units at the Victoria County Station site in Victoria County, Texas.

Goliad County commits to participate in the continuing planning efforts and scheduled field demonstrations for this Emergency Plan. Goliad County is committed to leading the effort to ensure that the health and safety of the public is maintained as the highest priority during the implementation and continued improvement of the emergency preparedness and response plans for the Victoria County Station.

Goliad County is committed to executing its responsibilities under the plans in the event of emergencies at the Victoria County Station.

Please contact me if you have any questions regarding this letter or Goliad County's support of the Victoria County Station Emergency Plan.

Very truly yours,

HFG/cw

**Victoria County Station, Units 1 and 2
Emergency Plan**

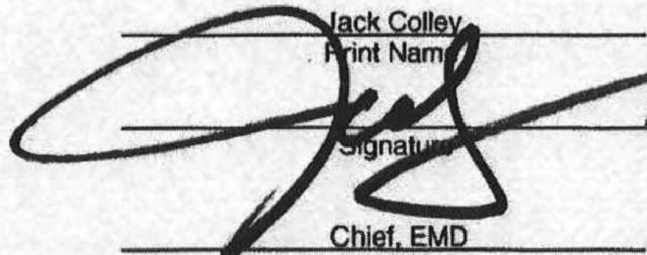

**Governor's Division of Emergency Management
Certification**

The Governor's Division of Emergency Management (GDEM), Texas Department of Public Safety has reviewed the emergency plan supporting the Combined License Application for two new nuclear generating units at the Victoria County Station site near Victoria, Texas, and certifies that:

- although the reactor design proposed for the Victoria County Station site has not been built and operated in the United States the proposed emergency plans are practicable;
- GDEM is committed to participating in further development of the plans including any required field demonstrations; and
- GDEM is committed to executing its responsibilities under the plans in the event of an emergency.

Furthermore, GDEM concurs with the proposed emergency classification system, initiating conditions and emergency action levels described in the Victoria County Station Emergency Plan and evacuation time estimates provided in Victoria County Station Evacuation Time Estimates, dated August 2008.

It is my understanding that the specific nature of arrangements in support of emergency preparedness for operation of the proposed new nuclear generating units will be clearly established in a properly executed and binding letter of agreement that will be included in the Victoria County Station, Units 1 and 2 Emergency Plan if and when Exelon Generation Company proceeds with construction and operation of this nuclear facility.
