(NOTE: This will be used as the Documents Title in ADAMS)

4/9/10 08:40 I spoke with the receptionist who indicated that neither the plant manager nor the RSO were in the building. The receptionist would page the RSO and have him get back in touch with me.

11:00 I spoke with Mr. Arroyo who indicated that he believed that a reevaluation had been performed since December 2006. He would not be in the office until Monday and would check his records.

4/13/2010 Mr. Arroyo called and stated that a reevaluation had been performed in January 2010. The licensee was due for a source loading later in the year and wanted to make sure the amount of financial assurance was appropriate. The licensee found that the estimate was not greater than 75 percent of the current amount committed to in the Letter of Credit. I informed Mr. Arroyo that the reevaluation should be kept on file for the next inspection and that I would record the fact that a reevaluation had been performed.
