

April 22, 2010

Mr. Bruce Montgomery  
Manager, Fleet Nuclear Safety and Security  
Constellation Energy Nuclear  
100 Constellation Way Suite 200  
Baltimore, MD 21202

Dear Mr. Montgomery:

Thank you for presenting at the U.S. Nuclear Regulatory Commission's 22nd Annual Regulatory Information Conference (RIC), March 9-11, 2010, in Rockville, Maryland. This year the total number of participants reached over 2,800, including international representatives from over 25 countries.

Initial feedback from participants indicates that this year's RIC was another resounding success. Your dedication and support helps the NRC to "raise the bar" each year to develop a comprehensive program filled with discussion topics that are timely and relevant.

Your presentation on "Restoring Predictability of the Licensing Function" during the W-10, "Licensing Best Practices" session, provided important information and another perspective about initiatives that are underway in the nuclear arena.

All final presentation slides and questions that were not addressed during the conference are being compiled and will be posted on the NRC's RIC website at: <http://www.nrc.gov/public-involve/conference-symposia/ric/index.html>.

Again, thank you for your participation at the NRC's 2010 Regulatory Information Conference. It is your commitment and support that helped to make the RIC a success. We hope you will join us next year for the 23rd Annual RIC, March 8-10, 2011, at the Marriott Bethesda North Hotel and Conference Center, Rockville, Maryland.

Regards,

*/ra/*

Robert A. Nelson  
Session Chair
