Hecia Mining Company
ATTN: Larry A. Drew, Manager
Environmental Affairs
6500 Mineral Drive
Box C-8000
Coeur d'Alene, Idaho 83814-1931

Dear Mr. Drew:

We are in receipt of your letter dated October 18, 1990, requesting termination of your Source Material License SUA-1482 for the Johnny H Mine, McKinley County, New Mexico. Based upon NRC's assessment of your Environmental Report and verification that surface reclamation efforts had been successful, it was determined that the proper action was to issue a finding of no significant impact in the Federal Register. A final finding of no significant impact was published in the Federal Register (58 FR 29641) on May 21, 1993.

Therefore, pursuant to 10 CFR Part 40, Source Material License SUA-1482 is terminated by deleting license Condition Nos. 6 through 11 and modifying license Condition No. 4 to read as follows:

4. Terminated

The license is being reissued to reflect this change. This licensing action was discussed between you and Dawn L. Jacoby on May 24, 1993. If you have any questions or comments regarding this action, please notify her at (303) 231-5815.

Sincerely,

Ramon E. Hall
Director
