MEMORANDUM TO: File (Docket Nos. 52-012 and 52-013, South Texas Project (STP) Units 3 and 4 COL Application)

FROM: Stacy K. Joseph, Project Manager  
ESBWR/ABWR Projects Branch 2  
Division of New Reactor Licensing  
Office of New Reactors

SUBJECT: Summary of Teleconference with Applicant Held on April 12, 2010

On April 12, 2010, NRC staff (S. Joseph, A. Muniz, F. Talbot) participated in a telephone conference call with STP Nuclear Operating Company (NOC) representative S. Cashell, L. Arnold, S. Franz and others regarding the staff's detailed review of the STP Units 3 and 4 COL Application. The purpose of the call was for STP to obtain clarification on proposed requests for addition information (RAIs) 4581 on technical topics related to STP COL Chapter 14.2 (Initial Plant Testing). It was determined by the staff that the RAI needs to be more clearly stated so that the applicant understands the intent of the RAI. A follow-up telecon will be held once the RAI is revised.
