As requested by the Nuclear Regulatory Commission staff, STP Nuclear Operating Company (STPNOC) reviewed the draft Safety Evaluation Report (SER) related to Combined License Application (COLA) Part 2, Tier 2, Chapter 6 to determine if it contained any proprietary information.

STPNOC identified proprietary design information related to the Containment Pressure Temperature and Pool Swell analyses on pages 6-13, 6-16, and 6-17 of the draft SER. This information was transmitted to the NRC in proprietary References 1 and 2.

No other proprietary information was identified in the draft SER.

There are no commitments in this letter.
