Re: License # 01-25550-01

Ms Kaufman:

After careful consideration Industrial Control Optimization Network, Inc. has concluded it would be in our best interest to simply terminate our NRC license. We have never possessed any nuclear materials, nor have we ever had occasion to use the NRC license. Should we need to operate in an NRC state in the future we plan to request reciprocity from Alabama and apply for a new license at that time. We appreciate your help and friendly attitude in this matter.

Sincerely,

Jim Lee
