In Re: Revised Request to Transfer NRC License #24-04206-15MD to Triad Isotopes, Inc. for the pharmacy located at;

180 Pepes Farm Road
Milford, CT 06460
NRC License #24-04206-15MD
Docket No. 03032952
Control No. 144368

Dear Mr. Lawyer,

I am writing to follow-up on the conversation we had on March 1, 2010 regarding the acquisition of the above referenced pharmacy by Triad Isotopes, Inc. Your office was initially notified about this transaction in a letter dated January 7, 2010 from Mallinckrodt Inc., the current owner of the pharmacy. Your office consented to the transfer of NRC License #24-04206-15MD to Triad Isotopes, Inc. in a letter to Mallinckrodt Inc. on February 5, 2010.

As a final step in the process, I am requesting that NRC License #24-04206-15MD be transferred to Triad Isotopes, Inc. The closing of the transaction was originally scheduled for March 31, 2010, but it has been moved back to **May 28, 2010** for operational reasons as a result of the severe Tc99m shortages that are expected to be ongoing through the end of May. Other than the date change, the transaction will be completed as described in the original notice that was sent to your office on January 7, 2010.

Triad will send documentation of the closing to your office on the day the transaction actually closes.

Than you for your assistance with this transfer and if you have any questions or comments, please call me at 407-455-6704 or e-mail me at wmccormick@triadisotopes.com .
