Dear Ms. Zemple,

This is regarding your letter of March 22, 2010, on the results of the assessment of the Office of Government Ethics (OGE) review team of its evaluation of the ethics program of the Nuclear Regulatory Commission (NRC).

I am very gratified by your findings that the NRC ethics program is in compliance with legal ethics requirements, meets the objectives for each required element, and even employs model practices.

The NRC ethics program is largely successful because of the strong support from agency management, starting the Commission itself, and the commitment by employees to maintain high ethical standards.

The OGE has always been extremely helpful and responsive to our requests. We look forward to continuing this close relationship. Please do not hesitate to contact me or the ethics staff if there is any way that we can be of assistance.

Sincerely,
