Dear Ms. Pelke,

I am writing to follow-up on the above referenced Radioactive Materials License transfer request that was sent to your office on January 7, 2010. When the transfer request was filed, Triad believed that the closing of the acquisition would take place on March 31, 2010. Due to several operational issues as a result of the severe Tc99m shortages that are expected to be ongoing through the end of May, the closing of the acquisition has now been rescheduled for **May 28, 2010**. On that date, Triad will send a copy of the Bill of Sale to your office as a formal notification that the change of ownership has been finalized.

I apologize if this delay has caused any additional work and if you have any questions about this closing date change, please contact me at 407-455-6704 or at wmccormick@triadisotopes.com.

Sincerely,
