Subject: Your presentation tomorrow

Mitch, thank you for participating in the conference call yesterday. It was very helpful to have your perspective and to get some initial comments on the revisions to the MOU that we provided. We look forward to getting any further immediate comments you may have as well as any comments based on your general counsels office review.

Additionally - as we talked - in your presentation tomorrow - it will be helpful for not only the Commissioners but also others in the audience - if you describe your jurisdiction, your requirements and the NEPA that you do as you make the decisions within your jurisdiction.

Of course, it will also be helpful if you state that you agree that an MOU between NRC and BLM is necessary and we are making progress on an MOU.

As we talked yesterday, we do have four applications already in and they are on BLM land. To date, based on feedback from your folks at the Field offices - it seems that plans of operation have not been submitted to BLM. We may need to have further discussion on things to be done to address this.

Please do not hesitate to call me with any further questions.

I look forward to seeing you tomorrow. If there is time for you to stay for lunch, we can have lunch with Don McKenzie also.

Take care.

Patrice M. Bubar, PE, Deputy Director
