

# **NRC PRESENTATION**

**December 11, 2008**

**Donald R. McKenzie  
Administrator  
Wyoming DEQ/LQD**

## **Items For NRC Consideration**

- **NRC Presence in Wyoming**
- **NRC EISs**
- **Groundwater Restoration**
- **Agreements**
- **NRC Rules**
- **Primacy**

## **Local NRC Office**

- **Majority of uranium activity in the West, particularly Wyoming**
- **Wyoming BLM & DEQ players are identified and working on mutual problems**

3

## **Local NRC Office (continued)**

- **Appropriate NRC contacts are not always obvious to BLM & WDEQ**
- **Physical presence needed to provide NRC program oversight in Wyoming**

4

## **Generic EIS**

- **Preliminary draft schedule tight, but comments seem to be addressed or are being addressed**
- **Wyoming wants to be a cooperating agency in site specific EISs/EAs**

5

## **Groundwater Restoration**

- **NRC commitment to making groundwater restoration a priority**
- **Historical sites still have problems**

6

## **Agreements**

- **NRC-BLM MOU needed**
- **NRC-BLM-Wyoming MOU needed**

7

## **New NRC Rules**

- **Consider Wyoming insitu rules**
- **Wyoming rules have been used as a model for other states**
- **Allow state flexibility when writing rules**

8

## **Primacy**

- **NRC & Wyoming redundancies, such as surface reclamation groundwater restoration, spill cleanups**
- **Wyoming currently unable to assume primacy for the whole NRC program, specifically safety**
- **Options**

9

## **Think Globally & Act Locally**

- **Presence**
- **Cooperation**
- **Commitment**
- **Process**
- **Flexibility**
- **Efficiency**
