Subject: Continued Coordination between BLM and NRC

Mitch - thank you for your attendance at the briefing to the NRC Commissioners last week. Your comments were very appreciated. There is a great deal of interest from not only the Commissioners but the regulated community of the coordination between our two agencies.

We would like to follow up with you on the draft MOU. We will be transmitting in writing our proposed revision (basically the version we sent you by email) for your consideration and review. When we transmit the proposal, that will go into ADAMS so it will be made publicly available.

We would expect that a face to face meeting may be helpful - after you have comments from within your agency.

In the interim, the NRC staff is coordinating with the BLM Field Office staff. Site visits to three sites in Wyoming are planned for mid-January. Meetings with BLM Rawlins and Buffalo will also take place during that week.

If you have any questions or suggestions in the interim, please let me know.

We look forward to formalizing the relationship and interactions.

Take care and Happy Holidays.

Patrice M. Bubar, PE, Deputy Director
Environmental Protection and Performance
Assessment Directorate
Division of Waste Management
and Environmental Protection - FSME
