Subject: Crystal River pics

Chris,

We put some pics on S: drive for the current events slides.

S:\DRS\Current Events\Crystal River Containment\Current Events photos

Possible text to accompany:

An Special Inspection is ongoing to address a containment concrete separation issue at Crystal River. The licensee is testing the containment to determine how much of it is affected by the concrete separation. The licensee is also conducting a root cause analysis and a design evaluation to better understand the issue. Progress Energy will discuss their activities with the NRC during a public meeting in Rockville on November 20.
