

## UNITED STATES NUCLEAR REGULATORY COMMISSION

REGION I 475 ALLENDALE ROAD KING OF PRUSSIA, PENNSYLVANIA 19406-1415

April 27, 2010

Docket No. 03036503 License No. 19-30882-01

Control No. 144603

Claudia D. Newman Secretary/Treasurer Hardin-Kight Associates, Inc. 7524 WB & A Road, Suite 100 Glen Burnie, MD 21061

SUBJECT: HARDIN-KIGHT ASSOCIATES, INC., LICENSE AMENDMENT, CONTROL NO.

144603

Dear Ms. Newman:

This refers to your NRC license listed above. Your license issued on March 10, 2005, does not include maximum possession limits for the radioisotopes authorized on the license. Current NRC policy requires that a license include a maximum possession limit for each radioisotope authorized on the license. Therefore, we have administratively amended your license to incorporate this requirement and Item 8 of the license is revised to include maximum possession limits for the radioisotopes authorized on the license. These limits are based on the information provided by Glenn Clayville of your staff on April 22, 2010, during our telephone conversation. Additionally, Condition(s) 12 and 18 that appear in your license are removed as they are no longer needed. The remaining conditions are renumbered in accordance with current NRC policy. Enclosed with this letter is the amended license.

You must request and receive an amendment to your license <u>prior</u> to acquiring licensed material in excess of the limits specified in Item 8 of the license.

Please review the enclosed document carefully and be sure that you understand and fully implement all the conditions incorporated into the amended license. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region I Office, Licensing Assistance Team, (610) 337-5239, so that we can provide appropriate corrections and answers.

An environmental assessment for this action is not required, since this action is categorically excluded under 10 CFR 51.22(c)(14).

Current NRC regulations and guidance are included on the NRC's website at <a href="www.nrc.gov">www.nrc.gov</a>; select Nuclear Materials; Medical, Academic, and Industrial Uses of Nuclear Material; then Regulations, Guidance, and Communications. You may also obtain these documents by contacting the Government Printing Office (GPO) toll-free at 1-866-512-1800. The GPO is open from 7:00 a.m. to 6:30 p.m. EST, Monday through Friday (except Federal holidays).

Thank you for your cooperation.

Sincerely,

## Original signed by Jenny Johansen
