Hi Jackie,

Yes, you should remove Dr. Crane from the AU list. That was the only material he ever used.

Thanks,

Ron Frick

Ron:

I am processing and trying to issue today the amendment request for Wilcox Memorial Hospital, License Number 53-15737-01, dated January 7, 2010. In that request, the licensee requested to remove the authorization for Sr-90 and delete Dr. Nickmeyer as an authorized user (AU). Please note that since you will no longer have authorization for Sr-90, I will delete Dr. Crane as an AU also because that was his only authorization. Please confirm if Dr. Crane should be deleted as an AU also or if not, please let us know the material and use he should be authorized for and documentation of his training and experience to use this material (i.e., copy of an Agreement State license or NRC license he may be an AU on). I apologize for the short notice, but if you can respond as soon as possible upon the receipt of this e-mail, it will be greatly appreciated.

Thanking you in advanced for your assistance, cooperation, and prompt response in this matter,
