Attention: Mr. Albert Schwencer, Chief
Operating Reactors Branch No. 1
Division of Operating Reactors

Subject: Indian Point 3 Nuclear Power Plant
Docket No. 50-286
Capsule T Material Surveillance Report,
Heatup/Cooldown and Hydrostatic
Test Pressure Curves

Dear Sir:

In accordance with your phone conversation on January 10, 1980 with our Mr. G. Wilverding, enclosed please find a check in the amount of \$4,000 as the application fee for the NRC review of the subject item, which the Authority pays under protest pending a final determination of the legality of the fee schedule. The Authority has classified this application for amendment to the Operating License pursuant to 10 CFR §170.22 as Class III since it relates to the single issue of the revised subject curves based on the results of the Capsule T material surveillance coupons.

Very truly yours,

Paul J. Early
Assistant Chief Engineer-Projects
