Safeguards Contingency Plan

Dear Sir:

The Authority has received your letter dated January 24, 1980 which requested additional information on the subject item dated March 14, 1979. As a consequence of security efforts for recent scheduled and unscheduled outages, additional NRC program response requirements and the present re-evaluation of the entire Security Program by the Authority, the Authority finds that it cannot respond to your request within the time you requested. The Authority plans to respond to your information requested by May 5, 1980. The results of the present Security Program evaluation will provide the information needed for your review.

Very truly yours,

Paul J. Early
