

ATTACHMENT II

SAFETY EVALUATION

RELATED TO

ORGANIZATION AND  
MANAGEMENT TITLE CHANGES

POWER AUTHORITY OF THE STATE OF NEW YORK  
INDIAN POINT 3 NUCLEAR POWER PLANT  
DOCKET NO. 50-286

~~8106220191~~

## Section I - Description of Modification

The modification seeks to revise the Section 6.0 Administrative Controls of Appendix A by:

- 1) changing the titles of several members of the Safety Review Committee (SRC),
- 2) adding the Manager-Nuclear Operations to the membership of the SRC and increasing the quorum requirements,
- 3) adding Emergency Planning as a new area of SRC competence,
- 4) deleting the position of Executive Vice President and Director of Power Operations from the Management Organizational Chart (Figure 6.2-1),
- 5) changing the titles of several positions shown on the Management Organizational Chart (Figure 6.2-1),
- 6) changing the reporting requirements of the Senior Vice President-Nuclear Generation and the Safety Review Committee to the President and Chief Operating Officer,
- 7) adding the position of Executive Vice President-Procedures and Performance to the Management Organizational Chart (Figure 6.2-1) and the Director of Safety and Fire Protection who is responsible for the Power Authority direction of the Fire Protection Program,
- 8) changing the title of several positions shown on the Plant Staff Organizational Chart (Figure 6.2-2) and addition of the Shift Technical Advisor.

## Section II - Purpose of Modification

The purpose of this modification is to update the Section 6.0 Administrative Controls to reflect recent organization and management title changes which have taken place at the Authority.

## Section III - Impact of the Change

These modifications will not alter the conclusions reached in the FSAR and SER accident analysis.

## Section IV - Implementation of the Modification

The modifications as proposed will not impact the ALARA or Fire Protection Program at IP3.

## Section V - Conclusion

The incorporation of these modifications: a) will not increase the probability nor the consequences of an accident or malfunction of equipment important to safety as previously evaluated in the Safety Analysis Report; b) will not increase the possibility for an accident or malfunction of a different type than any evaluated previously in the Safety Analysis Report; c) will not reduce

the margin of safety as defined in the basis for any Technical Specification, and d) does not constitute an unreviewed safety question.
