Coley et al,

In preparation for the upcoming 2010 ACRS ABWR subcommittee meetings in support of the South Texas Project Units 3 & 4 COLA, I have attached the Phase 2 SER/OIs for Chapter 6, 7 and 10 along with a transmittal letter. Please note that the enclosed SER/OIs and letter are electronic courtesy copies provided in order for STPNOC to begin a proprietary review. Hard copies are also being mailed to Mr. Scott Head. We are requesting for STPNOC to perform their proprietary review within 7 days from the date of the above letter. Until a determination that the enclosures do not contain proprietary information, these documents should not be released to the public. In addition, the SERs are password protected at this time.

NRC staff plans to present Chapter 6, 7 and 10 at May and June, 2010 ACRS ABWR subcommittee meetings. Proposed meeting agenda and other details will be provided at a later date. Please let me know if you have any questions.

SUBJECT: SAFETY EVALUATION REPORT WITH OPEN ITEMS FOR CHAPTERS 6, 7 AND
10 REGARDING THE SOUTH TEXAS PROJECT COMBINED LICENSE
APPLICATION REVIEW

Dear Mr. Head:

The U.S. Nuclear Regulatory Commission staff is preparing a safety evaluation report (SER) with open items (OIs) for each chapter of the South Texas Project Units 3 & 4 Combined License Application (COLA) submitted by STP Nuclear Operating Company (STPNOC) on September 20, 2007.

The staff's SER with OIs for Chapters 6, 7 and 10 will be provided to the Advisory Committee on Reactor Safeguards (ACRS) Subcommittee to support upcoming meetings of the ACRS Subcommittee, scheduled to be held in May and June of 2010. The staff is continuing to review the COLA and may identify additional open items as a result of future STPNOC submittals.

The enclosed SERs with OIs are being provided to STPNOC for review of proprietary information. Pursuant to Title 10 of the *Code of Federal Regulations* (10 CFR) 2.390, we have determined that the enclosed SERs with OIs may contain proprietary information or other categories of information that should be withheld from public disclosure. We will delay placing the enclosures in the public document room to provide you with the opportunity to comment on information in the enclosed SERs with OIs that should be withheld from public disclosure.

NOTICE: Document transmitted herewith
contains sensitive unclassified information.
When separated from the enclosure this cover
letter is "DECONTROLLED."

S. Head
