Scott,

DRP has the lead for responding to these questions; we may need some help?

One thing we'll need to clarify early on for questions 2-4 is whether this applies to TMI only, all plants in PA, or ALL plants. If TMI only, this would simplify the task, and I would expect we can get from residents/Ron Nimitz (if still on site in support)/licensee. Otherwise, will need to regroup in the morning.

Doug - can you get with Gene Dacus to clarify? Thanks.

Let's touch base in the morning.

Jim

Region I will take the lead.....pls. advise on the review process before we provide the answers to the PA SLO.
Thanks, Sam

Subject: Due-Outs from chairman's Call to PA Gov on TMI Event.

Phone call went well. We have four due-outs:

1. What standard did Exelon use to determine that they did not have to notify the NRC?
2. The number of such contaminations events on average per year?
3. The number of workers exposed in each event and the total numbers for the year 08?
4. The number of workers who reached the 2000 mrem/yr (08)?

Contact Amy Powell or Jenny Weil for more info.

Gene
