Gene informed me that the governor was looking for industry wide data. However, I will confirm that with Dave Allard.

Doug Tifft
Regional State Liaison Officer

OK, we may have to define. Gene out of office, Amy or Jenny have the lead. Our best bet is to coordinate with Dave Allard on the questions and answers since the IOU is to him and he will have to deliver to the Gov. Sam

Sam,

That works. I've asked Doug to check on the scope of the plants covered (TMI only, as I would expect, or all plants in PA?) with Gene Dacus, to make sure we fully answer the questions.

Sam,

Understand DRP has the lead, deadline COB tomorrow, appropriately accounting for review.

Region I will take the lead.....pls. advise on the review process before we provide the answers to the PA SLO.
Thanks, Sam

Phone call went well. We have four due-outs:

1. What standard did Exelon use to determine that they did not have to notify the NRC?
2. The number of such contaminations events on average per year?
3. The number of workers exposed in each event and the total numbers for the year 08?
4. The number of workers who reached the 2000 mrems/yr (08)?

Contact Amy Powell or Jenny Weil for more info.

Gene
