

UNITED STATES OF AMERICA
NUCLEAR REGULATORY COMMISSION
ATOMIC SAFETY AND LICENSING BOARD

Before Administrative Judges:

Ann Marshall Young, Chair
Dr. Paul B. Abramson
Dr. Richard F. Cole

In the Matter of:

ENTERGY NUCLEAR GENERATION
COMPANY AND ENTERGY NUCLEAR
OPERATIONS, INC.
(Pilgrim Nuclear Power Station)

Docket No. 50-293-LR

ASLBP No. 06-848-02-LR

May 4, 2010

ORDER
(Regarding Agenda for Telephone Conference Call)

In preparation for the telephone conference to be held in the above-referenced matter at 1:00 p.m. May 4, 2010, the Board hereby informs the parties of the following agenda:

1. Representation of Intervenors by counsel – Will Intervenors have counsel to represent them in the remainder of this proceeding?
2. Utilization of NRC's EIE system – Do the parties wish to begin using the EIE system?
3. Experts the parties expect at this point to use in the hearing on remand.
4. Definition of issue(s) for hearing – The Board proposes the following as a starting point for discussion of the issue(s) in the conference:

Broadly stated, the issue is:

Whether the Pilgrim SAMA analysis resulted in erroneous conclusions on SAMAs found or not found to be cost-beneficial to implement. *See Entergy Nuclear Generation Co. and Entergy Nuclear Operations Inc.* (Pilgrim Nuclear Power Station) CLI-10-11, 71 NRC __, __ (slip op. at 37) (March 26, 2010).

More specifically, the issue is:

Whether the Pilgrim SAMA analysis's meteorological modeling using the straight-line Gaussian plume dispersion model is adequate, *see id.* at 14, 18, 21-28, when adequacy is defined by whether alternative modeling as argued by Pilgrim Watch would cause any additional SAMAs to become cost-beneficial when examined using median results from probabilistic analyses performed using such alternative modeling in comparison to the current results using the Gaussian plume dispersion model, *see id.* at 38-39, by virtue of having a material impact on the economic cost issues originally raised by Intervenor Pilgrim Watch, as defined and limited by the Commission in CLI-10-11, *see id.* at 36-37.

Because the Commission in CLI-10-11 stated that Pilgrim Watch's arguments on evacuation speed and timing, etc., are not up for further hearing, *see id.* at 35, this is not an issue on remand (notwithstanding the general statement at 27, which appears to be negated by the more specific Commission statements at 34-35).

5. Discovery –
 - a. Pilgrim Watch's request for information;
 - b. Sharing of information prior to hearing;
 - c. Time required for discovery.
6. Schedule for hearing.
7. Any additional relevant matters not included above.

FOR THE ATOMIC SAFETY
AND LICENSING BOARD

/RA/

Ann Marshall Young, Chair
ADMINISTRATIVE JUDGE

Rockville, Maryland
May 4, 2010¹
