

NUCLEAR REGULATORY COMMISSION  
REGION I  
475 ALLENDALE ROAD  
KING OF PRUSSIA, PENNSYLVANIA 19406-1415

May 4, 2010

Docket No. 03036829  
Control No. 144605

License No. 44-30994-01

Brian J. Beaudoin  
Senior Project Engineer  
Sanborn, Head & Associates, Inc.  
2 South Main Street  
Suite 2  
Randolph, VT 05060

SUBJECT: SANBORN, HEAD & ASSOCIATES, INC., LICENSE AMENDMENT, CONTROL  
NO. 144605

Dear Mr. Beaudoin:

This refers to your NRC license listed above. The latest amendment to your license (Amendment No. 01) does not include maximum possession limits for the radioisotopes authorized on the license. Current NRC policy requires that a license include a maximum possession limit for each radioisotope authorized on the license. Therefore, we have administratively amended your license to incorporate this requirement and Item 8 of the license is revised to include maximum possession limits for the radioisotopes authorized on the license. These limits are based on the information provided by you on May 4, 2010, during our telephone conversation. Additionally, Condition 12 that appear in the previous amendment to your license is removed from your license as it is no longer needed and the remaining conditions have been renumbered in accordance with current NRC policy. Enclosed with this letter is the amended license.

**You must request and receive an amendment to your license prior to acquiring licensed material in excess of the limits specified in Item 8 of the license.**

Please review the enclosed document carefully and be sure that you understand and fully implement all the conditions incorporated into the amended license. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region I Office, Licensing Assistance Team, (610) 337-5239, so that we can provide appropriate corrections and answers.

An environmental assessment for this action is not required, since this action is categorically excluded under 10 CFR 51.22(c)(14).

Current NRC regulations and guidance are included on the NRC's website at [www.nrc.gov](http://www.nrc.gov); select **Nuclear Materials; Medical, Academic, and Industrial Uses of Nuclear Material**; then **Regulations, Guidance, and Communications**. You may also obtain these documents by contacting the Government Printing Office (GPO) toll-free at 1-866-512-1800. The GPO is open from 7:00 a.m. to 6:30 p.m. EST, Monday through Friday (except Federal holidays).

B. Beaudoin
