LICENSEE: Dominion Energy Kewaunee, Inc.  
FACILITY: Kewaunee Power Station  
SUBJECT: SUMMARY OF PUBLIC MEETINGS CONDUCTED TO DISCUSS THE DRAFT SUPPLEMENTAL ENVIRONMENTAL IMPACT STATEMENT RELATED TO THE REVIEW OF THE KEWAUNEE POWER STATION LICENSE RENEWAL APPLICATION (TAC NO. MD9409)

On Wednesday, March 24, 2010, members of the U.S. Nuclear Regulatory Commission (NRC) staff held public meetings in Kewaunee, Wisconsin, concerning the staff's environmental review of the application submitted by Dominion Energy Kewaunee, Inc. (DEK) for renewal of the Kewaunee Power Station operating license. The purpose of the meetings was to provide the public with an opportunity to comment on the draft supplemental environmental impact statement (DSEIS) which was issued in January 2010. The public meetings were held at the Carlton Town Hall in Kewaunee, Wisconsin.

The DSEIS is a plant-specific supplement for Kewaunee Power Station to the "Generic Environmental Impact Statement for License Renewal of Nuclear Plants" (NUREG-1437). The NRC staff described the overall license renewal process, provided a description of the National Environmental Policy Act review process, and discussed the environmental requirements outlined in Title 10 of the *Code of Federal Regulations* Part 51 (10 CFR Part 51). The NRC staff also described the preliminary results of their analyses. The environmental impacts of continued operation were predicted to be small in all areas. The impacts of alternatives (including the no-action alternative) were predicted to have impacts in at least some environmental aspects that could reach moderate or large significance.

After the formal presentations were given by the NRC staff, members of the public were invited to provide comments. Approximately 16 people attended the two sessions. Attendees included members of the public, representatives of the NRC, DEK, and the news media.

In an effort to improve communication and increase interaction with members of the public, the NRC staff conducted open houses for one hour before each meeting and encouraged the public to submit meeting feedback forms. The staff provided displays and brochures and met with members of the public to answer questions about the proposed renewal of the Kewaunee Power Station operating license.

A combined listing of attendees for both sessions is provided in Enclosure 1. Enclosure 2 is a copy of the meeting handouts provided during the public meeting open house, including the agenda. The official transcripts for both meetings and any written comments submitted during the meetings are publicly available at the NRC Public Document Room (PDR), located at One White Flint North, 11555 Rockville Pike, Rockville, MD 20852, or from the NRC's Agencywide Documents Access and Management System (ADAMS). The ADAMS Public Electronic Reading Room is accessible at <http://www.nrc.gov/reading-rm/adams.html>. The transcripts for the afternoon and evening meetings are listed under Accession Nos. ML101241060 and ML101241061, respectively. A copy of the slides used during the NRC's presentation is also available in ADAMS under Accession No. ML101310419. Persons who do not have access to ADAMS, or who encounter problems in accessing the documents located in ADAMS, should contact the NRC's PDR reference staff by telephone at 1-800-397-4209, or 301-415-4737, or by e-mail at [pdr.resource@nrc.gov](mailto:pdr.resource@nrc.gov).

The comment period for the Kewaunee Power Station DSEIS ended on April 23, 2010. The NRC staff will consider all comments on the Kewaunee Power Station DSEIS and make any necessary revisions to the document prior to issuing its final supplemental environmental impact statement, scheduled for August 2010.

ENCLOSURE 2

**Welcome to the NRC's Open House  
Associated with the Environmental Review for the proposed  
License Renewal of Kewaunee Power Station**

This open house is intended to provide an opportunity for interested members of the public and staff from other Federal, State, and local agencies to interact with the NRC staff in an informal information exchange.

The NRC is gathering information necessary to prepare a Supplemental Environmental Impact Statement (SEIS) to the Generic Environmental Impact Statement (GEIS) for License Renewal of Nuclear Plants, regarding the proposed renewal of the operating license for Kewaunee Power Station. Please note that if you wish to provide formal comments regarding the draft Supplemental Environmental Impact Statement (DSEIS) to the GEIS, they must be presented at today's transcribed public meeting, or provided in writing or by e-mail by April 23, 2010. Comments received after this date will be considered if it is practicable to do so, but the NRC staff is able to assure consideration only for comments received on or before this date.

Written comments on the DSEIS should be sent to:
