Subject: QUERY: SCIENTECH (RIS Status / License Amendment Process)

Ms. Raleigh:

In response to your e-mail to Don Johnson, dated May 4, 2010 (see below), the Staff plans to issue a final version of RIS 2005-02, Rev 1, but a firm schedule has not been established. For emergency plan changes that involve a decrease in effectiveness, it is the staff's position that such changes should be submitted as license amendment requests under 10 CFR 50.90.

To: Johnson, Don
Subject: Draft Revision to RIS 2005-02, Revision 1

Dear Don,

Could you tell me what the status is of draft Regulatory Issue Summary 2005-02, Revision 1; Clarifying the Process for Making Emergency Plan Changes? I don't recall seeing a final version of it. Is the NRC going forth with issuing the RIS revision?

I was also curious whether the policy has changed. I believe the NRC is now requiring license amendment requests for decreases in effectiveness.

Thanks!

Deann
