Happy New Year to You,

I will work on the backgrounds. For most of the drawings, they were based on jpg or pdf backgrounds. As far as coordinate systems, we use UTM Zone 13, NAD 27 or Lat/Long NAD 27.

Hi Mike,

Happy New Year. Thanks for getting these files to me so quickly. We need some additional information to be able to understand the drawings you sent. One is the coordinate system that the drawings are in. Also, it would helpful to us to have the background images that are referenced in the drawings themselves (i.e., "wyoming state map.jpg"). Would it be possible to get this information from you?

Irene

Hello Irene,

Attached are the files that you requested. These were made in the Autocad 2007 version. Please let me know if you need anything else.

Mike
