

Docket No. 70-687

JUN 21 1982

Union Carbide Corporation  
ATTN: Mr. James J. McGovern  
Business Manager  
Radiochemicals  
P.O. Box 324  
Tuxedo, New York 10987

Gentlemen:

This refers to your March 3, 1982 letter concerning our February 19, 1982 request for a \$150 amendment fee to extend due date for the filing of an emergency plan for License SNM-639. The filing of an upgraded emergency plan was required by Commission Order dated February 11, 1981. Your letter indicated that the reason for the extension request was to allow time for you to submit a common plan for both your SNM and reactor facilities, pending receipt of new NRC guidelines for developing the plan for your reactor.

We have determined that based on the information contained in your letter and because of the Commission's delay in developing the guidance criteria for the preparation of emergency plans for research reactors, the \$150 amendment fee requested in our February 19 letter is hereby waived.

Sincerely,

Original Signed by  
Wm. O. Miller
