Gentlemen:

This refers to the Commission's February 11, 1981, Order to Modify License, which requested the filing of either a radiological contingency plan or a request for reduction in possession limits of radioactive materials. In response to your letter dated June 19, 1981, the Order for License SNM-639 was modified on July 24, 1981, to allow an additional period of time for your Company to comply therewith.

Requests for extension of time to comply with NRC Orders are subject to fees; however, through an oversight, your request for extension was processed without payment of the prescribed fee. We request, therefore, that you remit an amendment fee of \$150 as specified in fee Category 1D of Section 170.31 of Part 170. Payment should be made to the U.S. Nuclear Regulatory Commission and mailed to the attention of Douglas Weiss, Silver Spring Office.

We apologize for the oversight and delay in notifying you of the fee requirement for your request. If you have any questions concerning this matter, please let us know.

Sincerely,

Signed, G. James McHoway, Jr.
