Gentlemen:

The revised instructions for completion of Nuclear Material Transaction Reports, DOE/NRC Form-741, which were effective April 1, 1981, require measured discards and inventory difference data to be inputted directly to NMSS using the Form-741. Consequently, the need for this particular monthly report to the NRC Region I Office has been superseded. Accordingly, we are deleting License Condition 6.2 of Amendment MPP-3 to your License No. SNM-639, effective immediately. Be advised that an addendum to the revised instructions which specify time intervals for the discard and inventory difference report will be issued at a later date. Until that time, you should submit the respective report on a monthly basis to NMSS via DOE/NRC Form-741.

In addition to deleting License Condition 6.2, we are also deleting License Condition 6.4 of Amendment MPP-3 to your License No. SNM-639, effective immediately, which allowed the use of NRC Form-284. The Government Accounting Office has informed the NRC that the use of this document constitutes duplicate reporting and that such a practice should be eliminated. Therefore, you should follow the instructions contained in NUREG/BR-0006, "Instructions for Completing Nuclear Material Transaction Reports" and use the DOE/NRC Form-741 as a "Nuclear Material Transfer Receipt" in lieu of the NRC Form-284.

Sincerely,

L. J. Evans, Jr., Chief
 Fuel Facility Safeguards
 Licensing Branch
 Division of Safeguards, NMSS
