Dear Mr. Freeman:

On June 1, 2010, the U.S. Nuclear Regulatory Commission (NRC or the staff) received the NextEra Energy Seabrook, LLC's application for renewal of Operating License No. NPF-86 for Seabrook Station, Unit 1. We are currently performing an acceptance review for docketing in accordance with the requirements of Title 10 of the *Code of Federal Regulations* Section 2.101 (10 CFR 2.101) and will notify you of the results of our review. Should the staff determine that the application is acceptable for docketing, a schedule for the review will then be provided to you.

We have enclosed for your information a copy of the notice relating to your application that is being sent to the Office of the *Federal Register* for publication.

I am pleased to announce the appointment of Mr. Rick Plasse as the project manager for the safety review and Mr. Jeremy Susco as the project manager for the environmental review of your license renewal application. Please forward copies of all license renewal correspondence to Mr. Plasse and Mr. Susco. Mr. Ed Miller continues to remain responsible for the project management of all issues other than license renewal for Seabrook Station, Unit 1.
