Jim,

We should have a phone call to discuss.

We may need to revise our letter to be more specific with our request as our request pertains to NRC certificates only and original analyses, not confirmatory analyses.

When is a good time that I may call you?

I am not sure what is meant by “Additionally, DOE is requested to perform a review of similar DOE packages to determine whether similar issues exist by **xxxxxxx**.”.

The DOE certified packages have confirmatory analyzes conducted during their review process and do not have these problems. The only DOE certified packages that we do not conduct confirmatory analyzes on are the ones we convert from an NRC CoC to a DOE CoC. Are these the packages you are asking about? I would have expected NRC to have conducted the same during their review. Therefore, I am not sure what you are asking.

Subject: Request: Dates that DOE can provide the requested information to NRC, WRT review of the S-300 amendment request.

Jim,

Please provide two dates identified in the attached cover letter as "xxxxxxx" that DOE/Los Alamos can provide the requested information by. We are available to discuss at a time which is convenient for you if you would like. Regarding the first date, we suggest 5/21 in order to accommodate your need for a Certificate of Compliance by 6/10.

Regards,

Chris Staab
NRC Project Manager
