Division of Fuel Cycle and Material Safety, NMSS

SUBJECT: TECHNICAL ASSISTANCE REQUEST TO REVIEW SEISMIC  
INFORMATION FOR UNION CARBIDE CORP. (TUXEDO, NY)  
DOCKET NO. 70-687)

This is to request technical assistance from your branch to review for accuracy the seismic information (pages 30-32) in the enclosed environmental submittal received from Union Carbide Corp. The information was submitted in support of the application for renewal of the Union Carbide special nuclear material license. Activities conducted under this license are performed in a facility contiguous with the Union Carbide reactor near Tuxedo, New York (Docket No. 50-54).

If you have any questions on this subject matter, please contact Dr. A. T. Clark of my staff at ext. 74205.
