Gentlemen:

We received your letter of November 26, 1980, and check for \$150 for an amendment to License SNM-639. Amendment No. 5 was issued in response on November 26, 1980.

Your request has been classified by the Licensing staff as requiring a minor amendment to License SNM-639. Therefore, an additional minor safety and environmental amendment fee of \$192 is required, as specified in fee Category 1D of Section 170.31 of Part 170, copy enclosed. Payment of the additional \$192 should be made to the U.S. Nuclear Regulatory Commission and mailed to my attention.

The additional fee is due in accordance with the actual cost provision of Footnotes 1(d) and 4 of Section 170.31, which provide that upon completion of the licensing review, the Commission will review its expenditures for professional manpower and appropriate support services to determine the amendment fee. Amendment No. 5 required 9 staff-hours of processing time at \$38 man-hour for \$342 (\$342 less 150 = \$192 due).

If you have any questions, please contact us.

Sincerely,

Douglas Weiss
