On August 27, 2009, the U.S. Nuclear Regulatory Commission (NRC) transmitted to AREVA Enrichment Services LLC (AES) Requests for Additional Information (RAI) regarding the Eagle Rock Enrichment Facility (EREF) License Application (Ref. 1). On September 28, 2009, AES submitted the responses to those NRC RAIs (Ref. 2). Subsequently, the NRC requested additional information for the responses provided to RAIs ISA-17 and ISA-20. Enclosure 2 provides the AES supplemental response to these two RAIs.

Enclosure 2 provides the proprietary and security-related sensitive unclassified non-safeguards information (SUNSI) supplemental responses to the RAIs and supporting information, including markups to the Integrated Safety Analysis Summary. This enclosure contains those portions of the submittal that contain either proprietary or SUNSI information that AES is requesting be withheld from public disclosure in accordance with 10 CFR 2.390. This information contains quotes from or markups of information that the NRC previously identified as SUNSI. In accordance with 10 CFR 2.390(b), an affidavit supporting our request to withhold this proprietary and security-related information is enclosed.

The AES responses include a description of each RAI, the supplemental AES response, markups of the EREF License Application as appropriate, additional supporting information (text, tables) and associated commitments.

As noted above, the AES responses contain proprietary information or SUNSI, that AES is requesting be withheld from public disclosure in accordance with 10 CFR 2.390. Enclosure 1 provides an affidavit supporting our request to withhold the information identified in Enclosure 2 in accordance with 10 CFR 2.390(b).

The EREF License Application will be revised to include the changes identified in the markups provided in Enclosure 2 in Revision 3 of the EREF License Application.
