On May 5, 2010, the Nuclear Regulatory Commission (NRC) held a public meeting at the Monroe County Board of Commissioners' Chambers in Monroe, Michigan. The meeting was between NRC Region III management and Detroit Edison Company representatives to discuss the NRC's assessment of the safety performance of Fermi Power Plant Unit 2 for the period from January 1, 2009, through December 31, 2009. The meeting notice and NRC presentation can be found in the Agencywide Documents Access and Management System (ADAMS) as ML100990171 and ML101190209, respectively.

The NRC began the meeting with an overview of the NRC's Mission, the Reactor Oversight Process (ROP), national ROP results, and the Action Matrix in general. This was followed by a discussion of the NRC's assessment of Fermi Unit 2 performance in 2009, which was documented in the March 3, 2010, End-Of-Cycle assessment letter (ML100610249).

The licensee then provided a response to the NRC's assessment. At the end of the meeting, members of the public were given the opportunity to ask questions of NRC officials. A list of principal meeting attendees can be found in the attached enclosure.
