SUBJECT: ADVANCED TECHNONUCLEAR IMAGING CENTER, LICENSE AMENDMENT,
CONTROL NO. 144691

Dear Dr. Garcia-Rodriguez:

This refers to your letter dated May 11, 2010 describing the proposed transfer of licensed activities from Plaza Nuclear Imaging to Advanced Technonuclear Imaging Center. From your letter, we understand that the only changes will be the name and mailing address on the license, addition of one authorized user (AU) physician, and removal of one AU. The location of use, materials, and other persons using licensed material and/or responsible for radiation safety at the licensed facility will not change.

Based on the above understandings, we have no objection to this transfer. Enclosed with this letter is the amended license. Future changes in the licensed name, use, location, and persons responsible for licensed material require submission of a request to amend the license. NRC approval must be received prior to implementation of the proposed changes.

Please review the enclosed document carefully and be sure that you understand and fully implement all the conditions incorporated into the amended license. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region I Office, Licensing Assistance Team, (610) 337-5239, so that we can provide appropriate corrections and answers.

An environmental assessment for this action is not required, since this action is categorically excluded under 10 CFR 51.22(c)(14).

Current NRC regulations and guidance are included on the NRC's website at www.nrc.gov; select **Nuclear Materials; Medical, Academic, and Industrial Uses of Nuclear Material**; then **Regulations, Guidance, and Communications**. You may also obtain these documents by contacting the Government Printing Office (GPO) toll-free at 1-866-512-1800. The GPO is open from 7:00 a.m. to 6:30 p.m. EST, Monday through Friday (except Federal holidays).

C. Garcia-Rodriguez
